Thanks, Tim. Yes, same plant. If you can invite me to any discussion, that would be great and if my schedule allow, I will try and make it. Also, please invite Cynthia, as she will be the ACHD Permitting lead in the future.

Thank you,
Amy

I think so. Shawn Vozar sent me a modeling protocol for a plant in Elizabeth Twp with the same company name. I think it's relatively small 1 Combined Cycle/1 steam recovery unit. It sits right on the border with Westmoreland county. We're supposed to talk about the protocol in a couple of weeks. Let me know if you'd like to discuss or sit in on any discussions.

Tim LG

Hi Tim – Are you working with ACHD on this potential co-gen plant? If not, do you know who is?

Thanks,
Amy

Subject: Invenergy

You should have both received a message with a link to our file with the Invenergy NSR/PSD application. I did not have our Document Control Manager include the modeling files, as our modeling person is working with someone else at the EPA. If you want those, let me know and I will send them to you.

We are still in the process of reviewing the application. Once we do, we will work with Invenergy and the PADEP to set up the first public meeting. I will keep you both posted.
